

COVID 19 Update.

It is all of our responsibility to lessen the spread of Coronavirus. We are asking during this time to help everybody stay safe and healthy by limiting social interaction over the next few weeks. Upon arrival for your appointment please call the clinic to let us know that you are here and then remain in your car until we notify you to come in. This will help to limit the amount of people in the waiting room/clinic at one time. Please try to limit the number of people accompanying the pet to 1.

While in the clinic please keep a distance of 3 to 6 feet from clients and staff alike. Please feel free to wash your hands or help yourself to a disinfecting wipe. We have also increased our cleaning protocol to help keep staff and clients healthy.

We are trying our best to keep medications and pet foods in at regularly supplied times. However the veterinary purchasing company we use is having some supply issues due to people trying to over stock items. Please allow yourself extra time when placing an order so that you don't run out of foods/meds.

At this time we are going to limit our appointments to animals requiring urgent care and ask that you not book annual exams and routine appointments until further notice.

If you have recently traveled out of the country, you are at-risk or have tested positive for COVID-19, and your pet requires immediate veterinary attention, please contact us to determine the best course of action.

Our website will be updated as new information becomes available.
